DETAILED ACTION

Claim Rejections - 35 USC § 102

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hansen US 5,330,827.
3. The rejection set forth under 35 USC 102/103 in the paper mailed 10/3/07 is deemed proper and is herein repeated.
4. The newly amended claims and remarks filed in support thereof have been fully considered but have been found not persuasive.
5. Applicants have amended the claims so as to require the composite structural material be porous.
6. Applicants then argue that the prior art does not disclose, teach or suggest this property. This is not persuasive. The art at column 5 lines 45-56 indicates that there are porous areas in the resultant composite. As such, the limitation is seen to be clearly anticipated. Further, the compositional limitations are fully met. The porosity limitation is a property that is seen to be inherently possessed by the composite of the prior art. Finally, all articles and/or substrates are "porous" to some degree. As such, this property limitation is seen to be met.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
